

Landscape Rake

An attachment that pays for itself in a very short amount of time, replacing your hand labor work crew. The Landscape Rake was designed to remove small to medium-sized rock as small as 3/4" along with unwanted roots and debris. The Landscape Rake also breaks up lumpy soil, while grading, leveling, scarifying - preparing the soil in a one-step process. This is the perfect tool for preparing a seedbed, sodding or lawn leveling.
